

INTRODUCTION

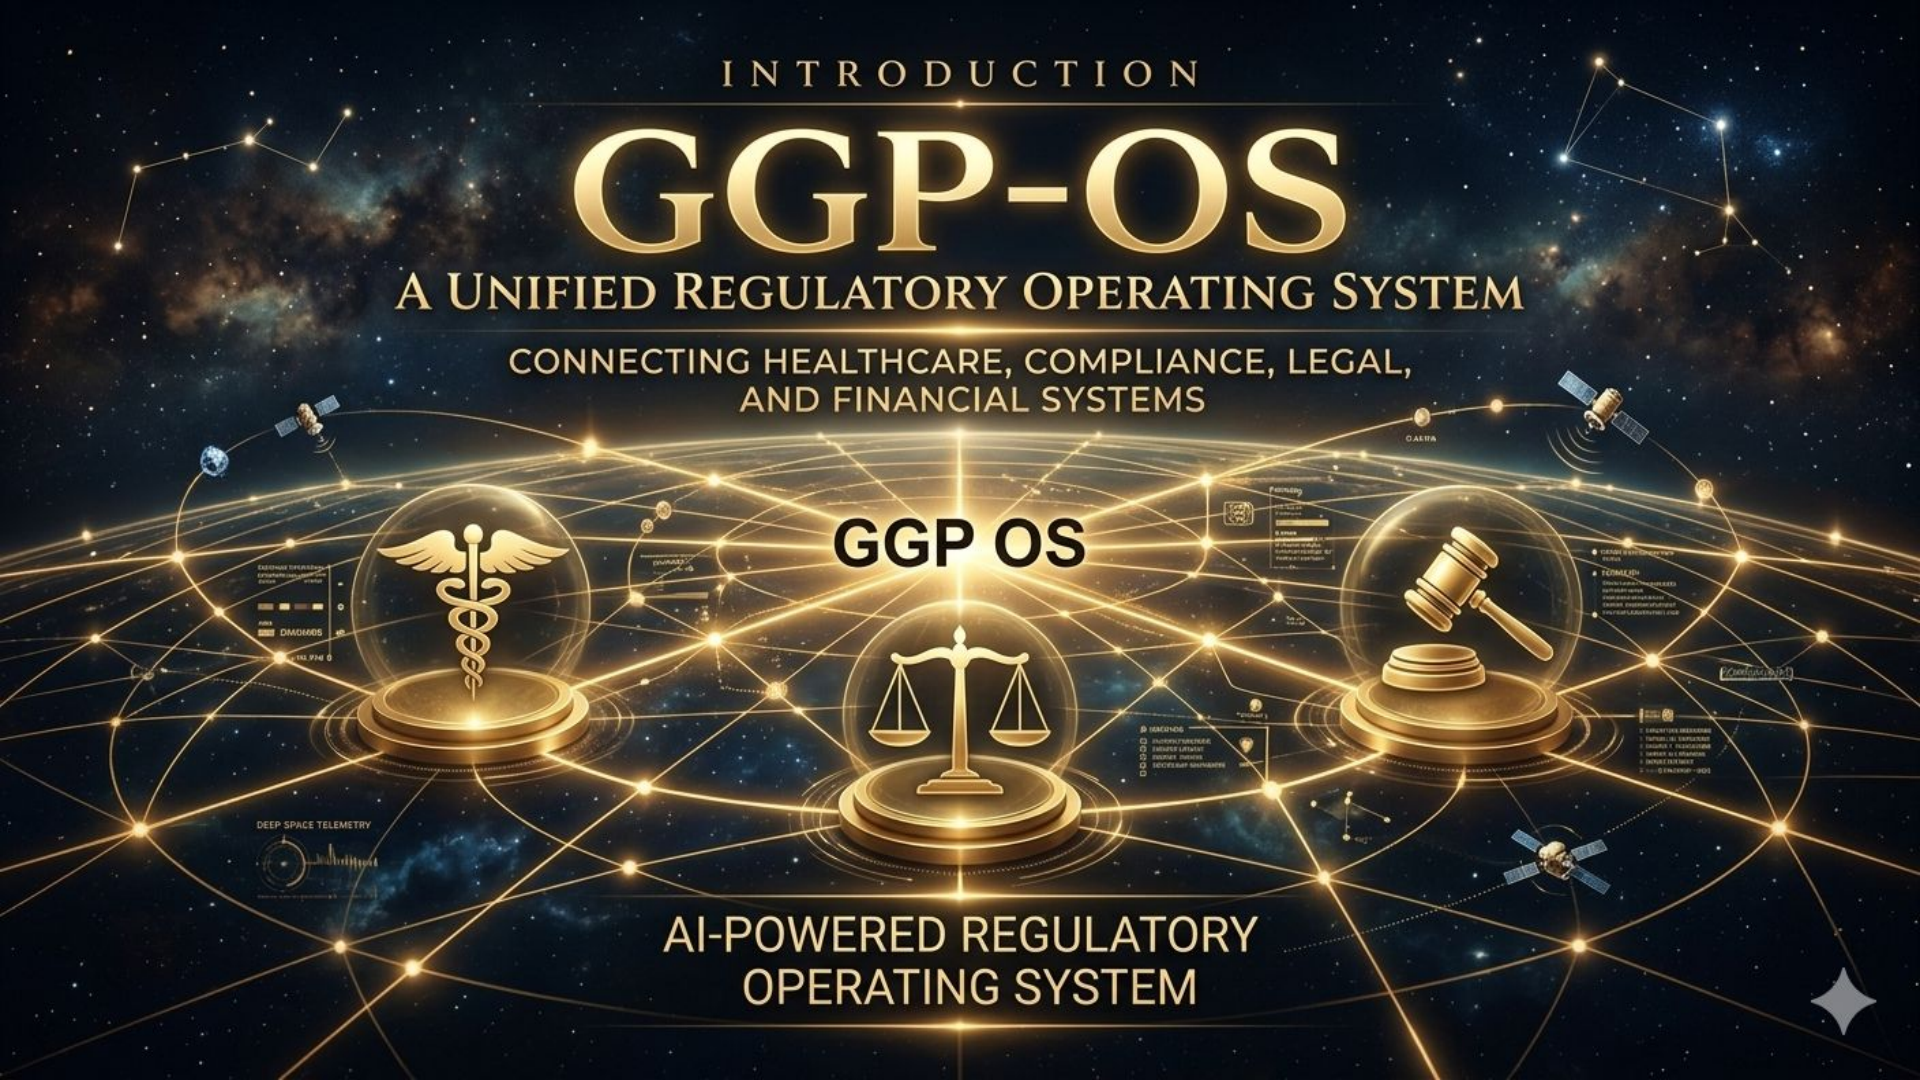

# GGP-OS

A UNIFIED REGULATORY OPERATING SYSTEM

CONNECTING HEALTHCARE, COMPLIANCE, LEGAL,  
AND FINANCIAL SYSTEMS

GGP OS

AI-POWERED REGULATORY  
OPERATING SYSTEM

"Hi, my name is \_\_\_\_\_.  
Today I'm going to show you something  
much bigger than an app.

We didn't build an app.  
We built infrastructure for regulated  
industries."

*(Pause. Let that land.)*

**GGP OS**

# SLIDE 3— Vision & Exit Strategy

➡ POSITIONS US NOT AS A PRODUCT...  
BUT AS THE ESSENTIAL BACKBONE INFRASTRUCTURE.

GGP OS

## SLIDE 4— Regulated Industries in Chaos

COMPLIANCE REMAINS REACTIVE,  
DISCONNECTED, AND UNVERIFIABLE.

FRAGMENTED  
SYSTEMS

MANUAL  
COMPLIANCE

HIGH LEGAL  
RISK

NO REAL-TIME  
ENFORCEMENT

  
GGP OS

## SLIDE 5 – Regulated Enforcetions flow

WE DON'T JUST TRACK ACTIVITY. WE ENFORCE OUTCOMES. (THIS IS ENFORCED COMPLIANCE.)

# UNIQUE VALUE (DIFFERENTIATION)

This is where we're fundamentally different.

Dual AI system: Guidance + Enforcement

Real-time compliance decision engine

Multi-stakeholder integration

Sylara guides. Larry enforces.

👉 This is **not** tracking — this is **enforced compliance**.

👉 “We didn’t build a cannabis platform.  
We built the system that controls it.”

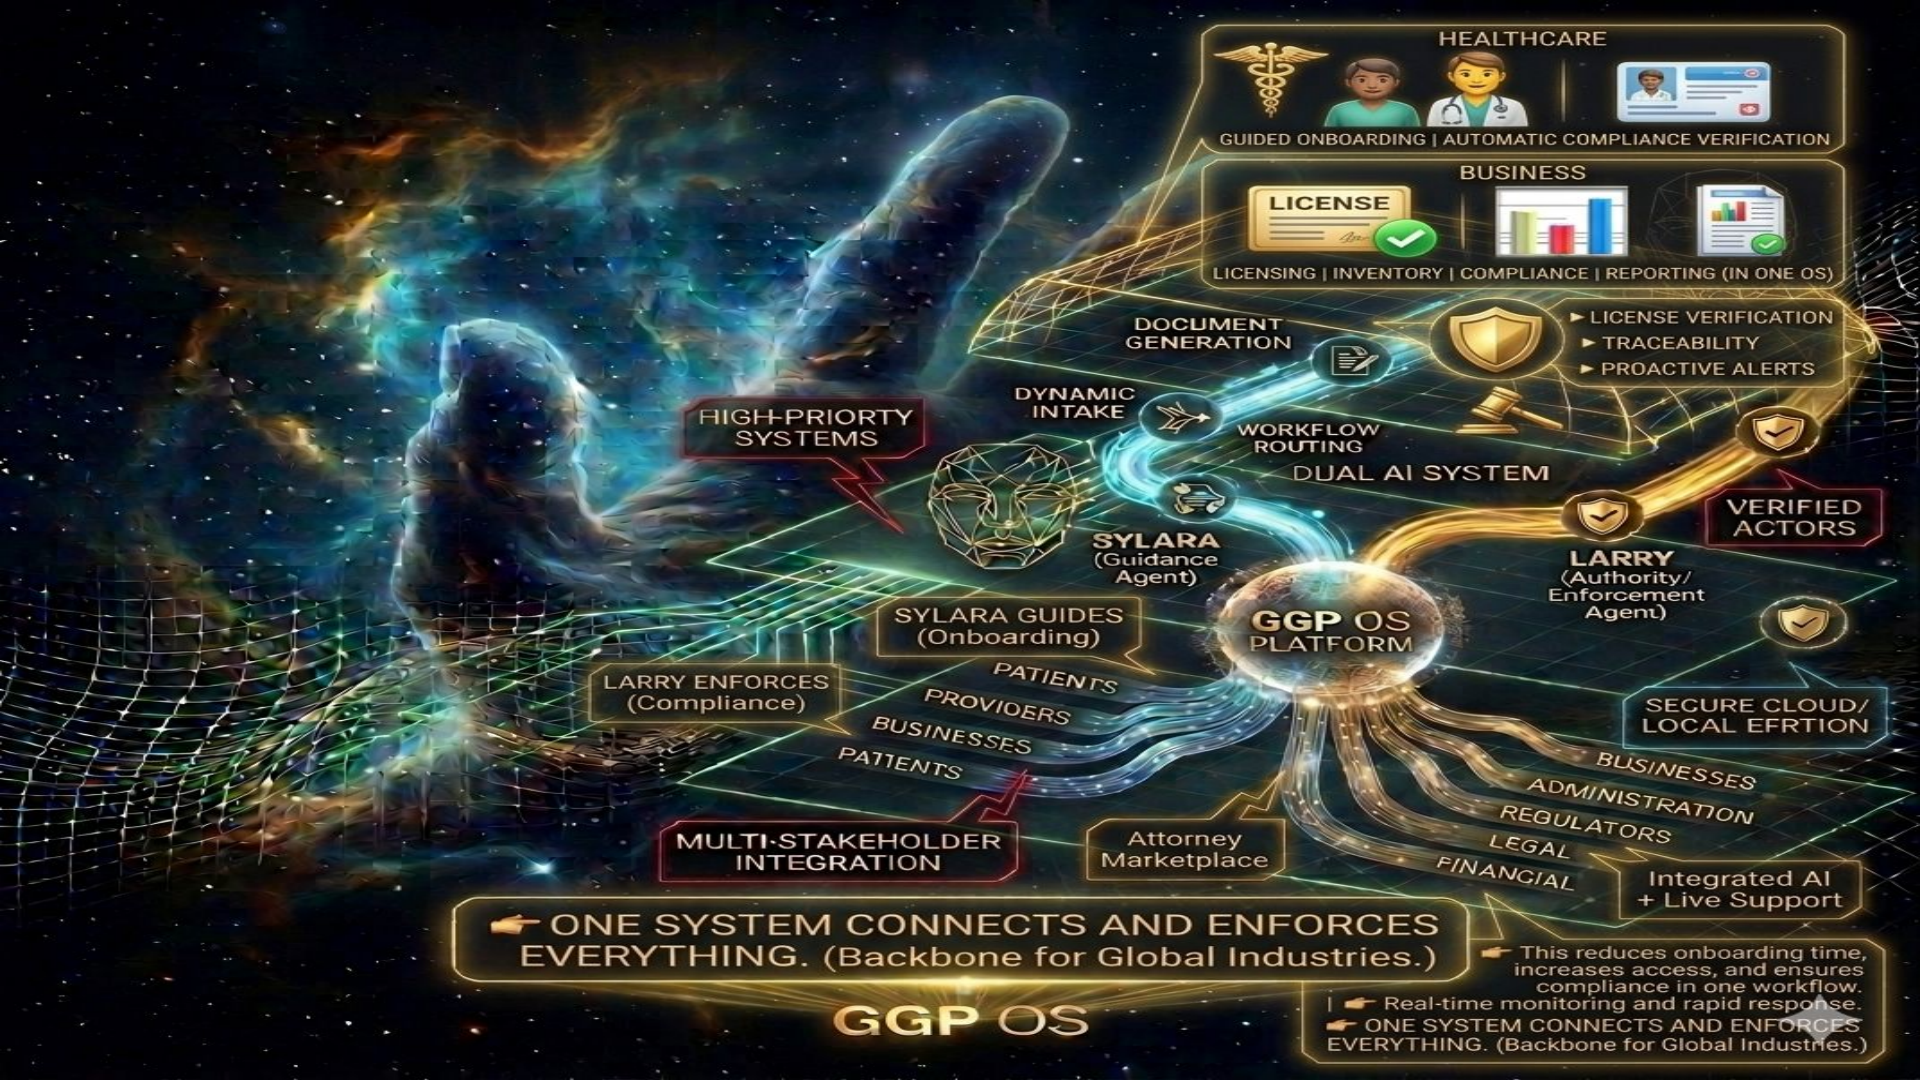

# HOW GGP OS WORKS:

User enters → Sylara guides actions in real time  
→ Larry evaluates compliance continuously →  
→ System approves, flags, or blocks.

👉 Every action verified instantly  
in a closed-loop infrastructure.

# CUSTOMER IMPACT

- Business: Automated licensing, inventory inventory & reporting

- State/Federal: Real-time visibility and unified oversight

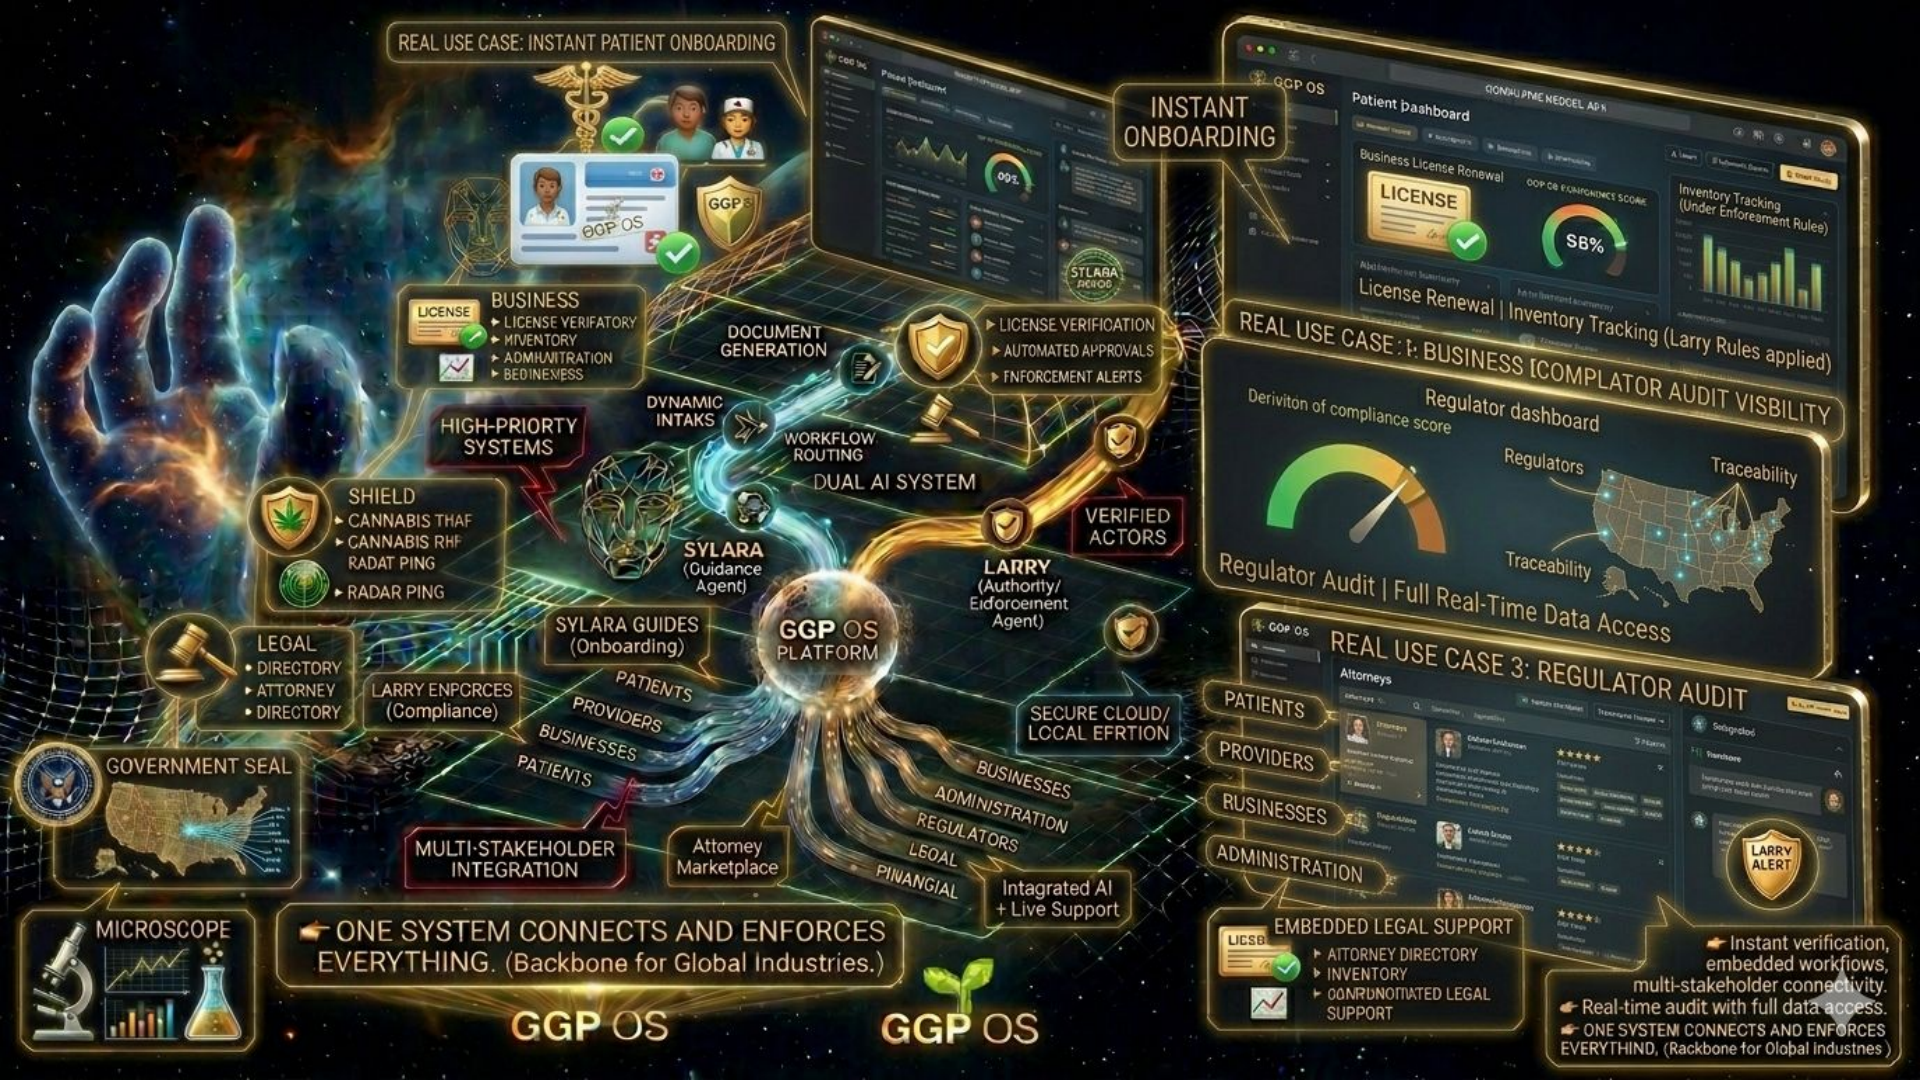

- Healthcare: Faster onboarding + automatic verification

- Enforcement: Proactive license & traceability checks

- Zero blind spots across operations and public health.

| Real Use Cases:  
| INSTANT ONBOARDING  
| BUSINESS RENEWAL + TRACKING  
| REGULATOR AUDIT

Guided Patient Onboarding  
AI Assistance

SOM: \$3.5B (Year 5 target)

BUSINESS RENEWAL + TRACKING

INSTANT ONBOARDING

AI-powered authority agent

SAM: \$85B (US regulated cannabis + compliance layer in healthcare/government)

LARRY ENFORCES (Compliance Rules)

REAL-TIME DATA ACCESS (Regulators)

ATTORNEY MARKETPLACE

👉 Dual-AI governing complex data networks.  
This is not tracking — this is enforced compliance.  
DUAL-AI GOVERNANCE | REGULATOR AUDIT VISIBILITY

## COMPETITION: OTHERS ADD TOOLS

## OUR SOLUTION: GGP OS UNIFIED SYSTEM

OTHERS SOLVE ONE PIECE | WE SOLVE THE SYSTEM

FRAGMENTED vs. UNIFY | TRACK vs. ENFORCE

REACT vs. PREVENT

- ▶ 1% TRANSACTION FEES ON WORKFLOWS
- ▶ ENTERPRISE LICENSING
- INTEGRATED TELEHEALTH ADD-ON Ratings & subscriptions

Multiple revenue streams built on one system.  
ONE SYSTEM CONNECTS AND ENFORCES EVERYTHING. (Backbone for Global Industries.)

- We replace systems. Others add tools.
- We prevent violations. Competitors react to them.
- Others offer fragmented tracking or monitoring tools.
- GGP OS replaces entire systems with unified guidance + enforcement.
